

Master 2 Neurosciences Fondamentales et Cliniques - UCB Lyon 1

UE Neuroconférences - *with the support of Labex Cortex*

Contact: Emiliano Macaluso & Marion Richard - <http://master2neurosciences.univ-lyon1.fr>

Cognitive and neural foundations of social interactions

Organised by Lara Bardi (lara.bardi@isc.cnrs.fr)

Wednesday 25 September 2019 Amphithéâtre "Neurocampus" (Vinatier, Bron)

11.00-12.30 **On the Linkage between Face Processing, Language Processing, and Narrowing during Development**
Dr. Olivier Pascalis (*CNRS, Grenoble*)

Thursday 26 September 2019 Amphithéâtre "Neurocampus" (Vinatier, Bron)

10.30-12.00 **Getting a grip on early action understanding: Motor, cognitive, and social factors**
Dr. Sarah Gerson (*Cardiff University, UK*)

Sensory perception and behavioral adaptation: ontogenesis and phylogenesis

Organised by Céline Amiez (celine.amiez@inserm.fr) & Fadila Hadj-Bouziane

Friday 11 October 2019 Amphithéâtre "Institut des Sciences Cognitives" (Bron)

11.00-12.30 **Sensory perception of social cues across childhood and adolescent development**
Dr. Marie-Hélène Grosbras (*Université Aix-Marseille*)

14.00-15.30 **The Origins of the Language: Primate communication and hemispheric brain specialization using MRI**
Dr. Adrien Meguerditchian (*Université Aix-Marseille*)

Using neuroimaging and Brain stimulation techniques to understand and treat psychiatric symptoms

Organised by Jerome Brunelin (jerome.brunelin@ch-le-vinatier.fr)

Wednesday 16 October 2019 Amphithéâtre "Neurocampus" (Vinatier, Bron)

13.00-16.00 **Usefulness of brain imaging and noninvasive brain stimulation to treat and investigate pathophysiology of depressive disorders**
Pr. Chris Baeken (*Université de Ghent, Belgique*)

Friday 18 October 2019 Amphithéâtre "Neurocampus" (Vinatier, Bron)

9.00-12.00 **Interest of animal model in addiction**
Pr. Vincent Van Waes (*Université de Franche-Comté*)
